LARGE POWER SERVICE – TIME-OF-USE

Availability

Available under established rules and regulations for service less than 500 kW. Determination of feasibility and availability shall be made by the cooperative for each request for electric power supply to loads in the cooperative's service area. A contract will be required for each such service which establishes conditions of service.

Not available to loads where the member's 15 minute measured demands are greater than 500 kW for at least 4 of 12 months.

Type of Service

Single-phase or multiphase, 60 hertz, at available secondary voltages. Motors shall have a locked rotor indicating code letter of A through C.

Rate: The monthly sum of;

Monthly Service Charge	\$50.00
Transmission Demand Charge For the highest kW demand recorded within the billing month	\$2.20 per kW
Customer Demand Charge For the highest kW demand recorded within the billing month	\$1.67 per kW

Terms of Payment

All meters are read monthly by the automated meter reading system or by the cooperative's personnel. Payment is due when the bill is received. In no circumstances will the cumulative time before notice of disconnection be less than 20 days after the date of issuance and an account may be deemed delinquent for the purpose of disconnection after such period has elapsed. A late payment charge of 1% per month will be added to utility bills not paid and credited prior to the succeeding monthly billing.
