PEAK ALERT SERVICE

Availability

Available under established rules and regulations for single or three-phase service. Determination of feasibility and availability shall be made by the Cooperative for each request for electric power supply to loads in the Cooperative's service area. A contract will be required for each such service, which establishes conditions of service.

Type of Service

Single or Three-phase, 60 hertz, at available primary or secondary voltages, as measured through one meter.

Rate: The monthly sum of;

Monthly Service Charge	\$75.00
Customer Demand Charge For the highest kW demand recorded within the billing month	\$4.50 per kW
Seasonal Demand Charge <u>Winter</u>	
Billed in March for the average demand recorded during full load control (peak alert) events occurring in the billing months of December through February	\$29.54 per kW
<u>Summer</u>	
In the billing months of June through August for the monthly average demand recorded during full load control (peak alert) events. The on-peak demand charges will be billed in the month subsequent to when recorded.	\$21.65 per kW

Power Cost Adjustment

A power cost adjustment will be included in all monthly billing as defined by ECEC's current rate schedule PCA.

Terms of Payment

All meters are read monthly by the automated meter reading system or by the Cooperative's personnel. Payment is due when the bill is received. In no circumstances will the cumulative time before notice of disconnection be less than 20 days after the date of issuance of the bill and an account may be deemed delinquent for the purpose of disconnection after such period has elapsed. A late payment charge of 1% per month will be added to utility bills not paid and credited prior to the succeeding monthly billing.
